

# Chaise A perforée\*

*Designed by Xavier Pauchard, revisited by Chantal Andriot*

\*perforated A chair

***Created in 1927 by Xavier Pauchard, the A Chair met with worldwide success from the beginning. It has been imitated but never equaled! Before becoming part of the collections at the Vitra Museum, the MOMA, the Pompidou Centre and the highly renowned architect Le Corbusier's Villa Savoye, the A Chair was part of «Le Normandie» ocean liner's furniture in 1935, lined café patios and equipped hospitals, the American army and cities before settling in private homes. Still manufactured by hand in Burgundy in our workshop, just as with all of our furniture, the A Chair remains an icon in today's design world. Available in steel for the TOLIX® MAISON version, in stainless steel for the TOLIX® OUTDOOR version, the A Chair can also be found in perforated stainless steel, for a new and resolutely chic style. You can also use a TOLIX® cushion on A Chairs.***

- First historical piece of the TOLIX® collection, in a perforated version
- Available in the color charts ESSENTIELS, TENDANCES and BRUT VERNIS
- Stackable
