

Tabourets H perforés*

Designed by Xavier Pauchard, revisited by Chantal Andriot

*perforated H stool

An icon of industrial esthetics for almost a century, TOLIX®'s H Stool has travelled through periods and styles and become a classic in its own right. Etched in the collective memory, it is a «living heritage» that illustrates the French art of living. Chantal Andriot conceived this perforated version in 2004, adding a more contemporary style to the H Stool. The light flashing through the metal gives a gently refined latticed appearance. The H Stool is available in eight different heights that change every 5cm, from 45 to 80cm. Add a TOLIX® cushion for even greater comfort.

- Historical piece of the TOLIX® collection, in a perforated version
- Available in the color charts ESSENTIELS, TENDANCES and BRUT VERNIS
- Stackable
- Available in eight different sizes
- The «Tabourets H» have footrests from the size H60 to H80
