The new TV Hi-Fi furniture of Tolix joins the range of perforated furniture of the brand. Conceived and manufactured 100% in France in our workshops, it was thought to be able to accommodate your Hi-Fi equipment thanks to its cable openings at the back.

Its design in steel and perforated steel makes it a design and solid furniture.

Its solid oak handles fixed on its sliding doors add to this small piece of furniture a touch of refinement which will be completed by the color you will choose.
