

Table 55 pieds bois *

Designed by Tolix®

*55 Table with wooden legs

The 55 Table established itself during the 1930s as the solidly resistant yet lightweight table. Its pared back esthetics and highly functional design opened a prestigious path to success: it flourished on café terraces before becoming a part of home interiors in the 1950s. For this dual material version, TOLIX® plays with the contrast between form and matter: conic wooden legs and a rectangular steel tabletop. This mixture of genres gives it a modern and warm look that makes 55 Table at home in any type of interior: industrial, vintage, Scandinavian and contemporary. The tabletop is available in all the colors and finishes from the TOLIX® ESSENTIELS, TENDANCES and BRUT VERNIS color charts. It is also comes in a dual material version with Iroko legs, for TOLIX® OUTDOOR use.

- Available in the color charts ESSENTIELS, TENDANCES and BRUT VERNIS
- Available in 5 different lengths and custom-made
- Bi-material
