

Tabouret H30^{*}

Designed by Tolix[®]

*H30 stool

The H30 stool is the little version of the legendary «H» stool from TOLIX[®], an emblem of the industrial esthetic that developed in the 1940s. The H30 has the same shape and characteristics: simplicity, highly resistant to wear and stackable. The low and generously proportioned seat is perfect for sharing a convivial moment around the coffee table. It is also a solid step stool for safely reaching items stored up high. Children will also enjoy and quickly adopt this mini stool for sitting and being with the adults! Manufactured in our workshop in France, like all of our products, the H30 Stool is made to last and be passed from one generation to the next. The galvanized version can be used outside or in a humid room.

- Historical piece of the TOLIX[®] collection in a mini version
- Available in the color charts ESSENTIELS, TENDANCES and BRUT VERNIS
- Stackable
