

Meubles Tabourets perforés *

Designed by Frédéric Gaunet

*Perforated Stool Shelves

Conceived by designer Frédéric Gaunet, the Stool Shelf is a storage unit, and for the smallest size, also a stool. It lives happily in any room: as a night table in a bedroom, next to a couch in the living room, as accessible furniture in the bathroom... Decidedly contemporary and yet perfectly vintage, Stool Shelves work with all styles. They come in three heights: MT500, MT750 and MT1335. Available in any of the colors and finishes in the ESSENTIELS, TENDANCES and BRUT VERNIS color charts, they also exist in a no perforated version.

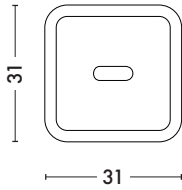

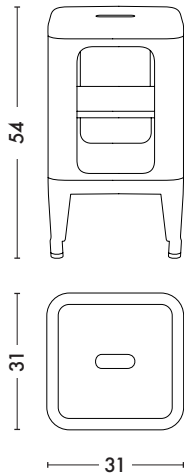

- Available in the color charts ESSENTIELS and TENDANCES
- Exist in 3 different heights
